Child Care Support Information Magazine for 0 to 5 Years Old Children MIA Special Edition English Version

MIA Childcare Information Magazine

Editorial Committee of Foreigners

Musashino International Association

Child Care Information Magazine for 0 to 5 Years Old Children ・ MIA Special Editing Multilingual Version Creation Project

In recent years, even in Musashino City, childcare facilities have been increased, children's playgrounds have been created, and little by little environments for easy child-rearing have been established and movements to support child-rearing are becoming active.

However, some foreigners' fathers and mothers feel that it is difficult to obtain local childcare support information and utilize it for reasons such as Japanese language, the system is different and not well understood.

Therefore, in 2017, as the first step of such support of MIA, focusing on foreign volunteers who have experiences raising children in the area and currently supporting foreigners, we organized “Childcare Information Magazine MIA Special Editing Multilingual Version Creation Project” and based on “The Child Rearing Information Magazine Sukusuku” issued by Musashino City, we edited and added information for foreigners and translated it to English version, Chinese version and Korean version. And this time, with the cooperation of Musashino City, we were able to update the MIA edition to the latest information and create Chinese, English and Korean versions.

MIA will continue to improve access to information for foreigners and help them make the most of it.

Consultation for Legal & Psychological Matters : The 4th Saturday afternoon of the month in principle (Free of Charge)

You can consult with a lawyer or psychology counselor with interpreter. Reservation is required in advance.

Experiences of Senior Mom

There were such good things when participating in MIA's Japanese-language course with childcare.

- Because my child was taken care of by the volunteer staff, I was able to study Japanese at ease.
(Because there is no child) I was able to be alone and relax.
- I made friends. After class, we had lunch together and went to the park to have fun.
- I heard a lot of stories of the kindergarten from senior mothers.
Is it a lunch box? Is there a school lunch? Do you make your own picture book bag? Is there a custody childcare? I listened to lots of things and they taught me.
- I was taught the place where children play.
“Where is the cheap and enjoyable place?” “Park (Koen) is good”
“XX pool is fun too” “Go to △ △ amusement park (Yu-enchi)”, etc.
- I sang Japanese child songs together.
- My child learned Japanese greetings. (Hello, goodbye, thank you ...)

I used MIA Interpreter Dispatch.

MIA volunteers will help interpretation at Musashino City Hall counter, daycare centers, schools, etc. to help with language problems.

I used this support to talk with my child's teacher. Once a month, we interviewed at the daycare center. The teacher told me how she was doing, who she was playing with and what she ate for lunch. The teacher also gave me helpful advice. Thanks to the interpreter, I was able to understand the teacher's story without any problems and to communicate. I also had plenty of time to ask questions, so I was able to clear up the worries after the interview.

This service is charged, but I think it's worth it.

1. Musashino City Health Service for Mothers, Fathers and Babies

Inquiry : **Health Section (Health Center)** Kichijoji Kitamachi 4-8-10

TEL: 51-0700

Open : 8:30am-5:00pm Closed : Saturdays, Sundays, Public Holidays, New Year's Holiday

About Vaccination

- We carry out individual inoculation in city designated medical institution.
- When vaccinating, “Preliminary Examination Form” and “Mother and Child Health Handbook” are necessary.
- The “Preliminary Examination Form” and the “list of medical institutions” that can receive vaccinations for free will be sent separately at the beginning of vaccination(see notification period in the table).
- For those who do not have “ Preliminary Examination Form” by transfer, or those who lost it, please bring “Mother and Child Health Handbook” to the Health Section (Health Center).
- You can inoculate “until” and “less than” until the day before your birthday.
- For vaccines to vaccinate over 9 years old, please check on Health News / City Website, etc.

Type	Period		Number	Inoculation Interval	Notice Time
Hepatitis B	Less than 1 year old *Standard vaccination 2 months to 9 months after birth		3 times	Two doses were given at intervals of 27 days or more and then inoculated once at intervals of 139 days or more from the first injection	The end of the month to be 1 month
Rotavirus Infection	Rotarix®	From 6 weeks to 24 weeks after birth	twice	27 days or longer interval	
	RotaTec®	From 6 weeks to 32 weeks after birth	3 times		
	※Two kinds of vaccines will be selected.				
Hib Infection	From 2 months old to less than 60 months old		1 to 4 times depending on the age of first vaccination inoculation	First interval of 27 days or more Additional 3rd inquiry more than 7 months after inoculation	
Pneumococcus				First interval of 27 days or more Additional interval of 60 days or more after the 3rd time on the day after 12 months after birth	
Diphtheria, whooping cough, tetanus, polio (DPT-IPV) The 1 st period	From 3 months old to less than 90 months old		The first time 3 times Additional once	For the first 20 days or more, typically three times at intervals from 20 days to 56 days Additional After the third round of the first round, interval of 6 months or more	
BCG (Tuberculosis)	Less than 1 year old		once		The end of the fourth month

“Less Than” can be inoculated until the day before the birthday.

★In 2021 and 2022, due to the decrease in the supply of Japanese encephalitis vaccine, we will be responding to notices that are different from usual. Please check the city website for details.

About child (5-11 years old) inoculation of new coronavirus vaccine.
The new corona vaccine is not compulsory.
The latest information is 2D on the right.
Please check with the code or city call center.

☎03-6736-5604 (weekdays 8:30 a.m. to 5:15 p.m.)

Experiences of Senior Mom

I used the Mother and Child Handbook (Mother and Child Health Handbook)!

●When I knew my pregnancy and had the **Mother and Child Handbook** issued at the Health Section (Health Center), I was told “Congratulations!”

I realized that “I’m going to be a mother!”

Good Points about the Mother and Child Handbook

- By making notes of what I noticed during pregnancy, it became a bridge between me and the obstetrician doctor, and since my baby was born it became a child-care diary by writing down what happened to my baby.
- The record of changes in my body during pregnancy remained. I could record the date of my first pregnancy checkup and the day when I felt fetal movement. I thought it was good to have this record when I looked back several years later.
- I will not forget the weight of the child at birth even if the child grows up, but I forget the weight at the age of months. However, I have a record of medical examination in the [Mother and Child Handbook](#) so I was able to look back on later.
- There is a spare column on the last page of the [Mother and Child Handbook](#). Because my child had food allergies, I was recording when and what kind of symptoms appeared while eating. Even when the doctor suddenly asked about allergic symptoms at the hospital, I was able to answer concretely when I saw the [Mother and Child Handbook](#).

Baby Health Examination (Health Examination)

- A questionnaire form for a baby to receive [medical examination](#) for free was sent from Musashino city at the time of visit.
- I was nervous about my baby's first [medical examination](#), but since baby's developmental guideline was written in the [Mother and Child Handbook](#), so I was able to receive it with a little peace of mind.
- I consulted with the teacher what I am worried about and anxious about at the time of [medical examination](#).
It was a good time to be relieved of parent's feelings.
- There was a sitting check of the neck at the health examination for 3-4 months, and my child was re-examined again. But I was able to notice this because they pointed out at that exam.

Baby got a vaccination

- “[Vaccination](#) Preliminary Examination Form” that can receive [vaccinations](#) for free was sent from Musashino city at the time of inoculation started.
- When receiving [vaccination](#), I brought this “[Vaccination](#) Preliminary Examination Form” and [Mother and Child Handbook](#). Hospital people recorded which [vaccinations](#) were received in the [Mother and Child Handbook](#). There were times when it was necessary to check [vaccination](#) since entering elementary school, but I understood it immediately by looking at the [Mother and Child Handbook](#).
- I thought many times that my child was sore and pity. But I did not want to regret that if my child got a big sickness because of not taking the [vaccination](#) at that time. So, I received all the [vaccinations](#) that were decided. For children, I think that it is better to receive [vaccination](#) for the future of children.

"Child Care Comprehensive Support Center" is a general term for consultation support related to children and child care. Children and Families Support Center, Health Center (Health Section), 0123 Kichijoji, 0123 Harappa, and Sakurazutsumi Children's Center, the 5 locations work together to provide support in the community from the pregnancy period. If it is related to children and child care, ask staff for any consultation. After listening to your story, if there is an appropriate referral, the staff will connect you to the staff.

Musashino City Hall South Building 3F Children & Family Department
Children & Family Support Center
General Consultation for Child Care / Abuse report TEL: 0422-55-9002
TEL: 0120-839-002
Single Parent / Help desk for women TEL: 60-1850

[Health Section (Health Center)]

Matters related to pregnancy and childbirth and life with the baby, regarding the health of children in infancy, public health nurses, registered dietitians, dental hygienists, midwives, etc. work together to provide continuous support, mainly for maternal and child health projects such as infant health checkups and childcare consultations.

Community place for parents and children

It is a place for parents and children to go out to play freely at any time. "I wonder how everyone is doing", "I want you to listen to me a little", "I want to know information about the area", etc. You can easily ask for advice, and you can exchange information and interact with each other. At 0123 Kichijoji, 0123 Harappa, and Sakurazutsumi Children's Center, there are "child care supporters" who can help you with your child care problems. First of all, please come and visit us. There are many other child care plazas in the city where you can relax and consult about child care. Please go to a place that is easy to use!

[0123 Kichijoji]

Kichijoji Higashicho 2-29-12 Tel.20-3210

It is a slightly large private house-like building in a quiet residential area. Parents and children can spend a relaxing time while increasing the number of child care companions while children play freely.

[Subject] In principle, children living in Musashino City who are 0 to 3 years old (until March of the year they turn 4) and their guardians

[Facility Details] Play hall, playroom, lounge, library corner, nursery room, garden, etc.

[Event Information] Age-specific plazas, seasonal meetings, online businesses, lectures, food and consultations on anything, etc.

[Opening Hours] 9:00 a.m. to 4:00 p.m.

[Closing Day] Sundays, Mondays, National Holidays (excluding Children's Day), Year-end and New Year holidays

[0123 Harappa]

Yahatacho 1-3-24 Tel.56-3210

It is located in a blessed natural environment with a Chuo Park, promenade, production green space, etc. in the surrounding area. You can play freely in bright light. We also provide a variety of support for parents who are raising children, such as lectures and child care consultations.

[Applicable] In principle, children living in Musashino City who are 0 to 3 years old (until March of the year they turn 4) and their guardians

■Special Education School Enrollment Incentive Expense

Inquiry: **Education Support Section** TEL: 60-1900

Parents of children who live in the city and are enrolled in municipal elementary and junior high school and fall under any of ① to ③.

① I am enrolled in the special support class.

② I go to a class guidance class and travel expenses are applied.

③ There are obstacles as stipulated by laws and ordinances.

* Living protection, not receiving schooling support expenses

* Income restrictions (Excluding commuting and regular-grade expense)

<Payment Costs> School supplies, school supplies expenses, school lunch expenses, school excursions and school trips participation fee, commuting and regular grade expenses, etc.

Other subsidies

■Private kindergarten · Ninka ·Subsidies for the issuance of certificates for attendance at certified nursery schools

Inquiry: **Child Raising Support Section** TEL: 60-1854

When a child living in the city who attends a private kindergarten, a child living in the city who uses a nursery school in the city, a certified child center, or a community-based childcare service, etc., has an infectious disease. Only if you have been examined by a medical institution affiliated with medical associations, you can have a certificate of permission to attend kindergarten after illness issued free of charge from the medical institution with the subsidy of the city.

Experiences of Senior Mom

There are various kinds of benefits.

There are things that everyone can certainly receive, and there are conditions also.

However, we cannot accept any kind of benefits from ourselves.

Also, it will not be possible to apply even after the application period.

So I decided not to forget to consider the application period of the benefit according to the child's growing stage.

- 1: When pregnant
- 2: When a baby was born
- 3: When a child goes to daycare or kindergarten
- 4: When going up to elementary school
- 5: When going to junior high school / high school

On benefits for children with disabilities

My acquaintance's foreign child had an intellectual disability, but I did not know that the application of welfare allowance applies to children with intellectual disabilities. However, from a colleague of the company, his child was also taught that it would be subject to welfare allowance application, and as a result of applying, after interviewing and examination by a doctor, etc., receiving a designation of the grade, welfare allowance according to the grade is now possible to receive.

4. When you want to put the child in day care.

Childcare Facilities • Kindergarten • Asobee • Gakudo Club Information

There are various Childcare Facilities in Musashino City. Please consider the features of the facility and conditions of entry and select the facility you would like.

You can consult when you do not know about Childcare Facilities. Consultation is in Japanese. Please go with someone who can speak Japanese. Reservation (TEL:: 60-1854). Interpreter dispatch of MIA (2 hours 5,000 yen / Free for twice during the fiscal year.) is also available.

Childcare Facilities

■Ninca Certified Daycare Center Inquiry : [Child Raising Support Section](#)
TEL: 0422-60-1854

<Age> 3 Months - 5 Years Old * There is a center to take care from the 57 days after birth.

Childcare Facility Q & A

Q1 What is the difference between Daycare Center and Kindergarten?

A. The Daycare Center entry criterion is that parents are working there are reasons that require childcare, such as being sick. Kindergarten is for children from 3 years old and can enter even if someone can take care of your child.

Q2 Where do I get the registration application documents?

A. We distribute “Handbook of Childcare Facility” and entry form for admission at Ninka Certified Childcare Centers, Municipal Administration Centers, Child Raising Support Section. (only in Japanese)

Q3 Can I join in the middle of the fiscal year?

A. Application for admission is accepted from the 1st to 10th of the month before the month you wish to join, and you can enter if there is a seat.(There is no admission in February or March.) Please consult the Child Development Section.

As for the acceptance of entry in April, we will inform you on the city newsletter “Shiho Musashino” and Website.

Q4 Can I enter a childcare facility even while I am in a job offer?

A. It is conditional to have a job within 3 months after entry. Please contact each facility for Non-Ninka Certified Daycare Facilities.

Q5 What is the entrance fee and the user's burden?

A. There is no admission fee in the case of Ninka Certified Daycare Centers, and Sakai Kodomoen in the city. There is no difference between the municipal and the private sector for the user's burden, and it is decided by the citizen tax income dividend of the parent. There is a mitigation measure after the second child. In the case of Non-Ninka Certified Daycare Facilities, please contact them as it varies from facility to facility.

For questions about this question and other questions, please contact the **Child Raising Support Section**. TEL: 60-1854

Nintei Certified Daycare Center

Nintei Certified Daycare Center is a facility that combines the functions of kindergarten, daycare center, and child rearing support.

Level 1 children (kindergarten) and level 2, 3 children (daycare center) play together. There is one center in the city.

Category	Capacity	Age	User's burden	Childcare time	Holiday
Level 1	46	4-5 years old	*Users will be charged 0 yen due to the free service. *Including school lunch expenses.	Monday-Friday 9:00-14:00 *In addition to the above childcare hours, support childcare is available.	Saturdays, Sundays, holidays, long summer season, winter season, spring season
Level 2 Level 3	61	3 months -5 years old	Decided according to the guardian's citizen tax income quota (Same standard as City Ninka Certified Daycare Center) *For children aged 3 to 5, the user fee will be 0 yen due to the free admission. *Including school lunch fee	Weekdays 7:30-19:15 (Including extended childcare) Saturday 7:30-18:30 * Available time varies depending on month and age.	Sundays and holidays New Year's Holiday (12 / 29-1 / 3)

Regional Style Childcare Program

Children from 0 to 2 years old

The entrance reception is the same as the Ninka Certified Daycare Center.

Application for admission and selection are carried out by the city's **Child Raising Support Section** (TEL: 0422 - 60 - 1854).

■Pediatric certified nurses (childcare mothers)

Nursery teacher, kindergarten teacher, nurse or home care teacher are required training and are in charge of nursing in the child rearing room such as home. Four places in the city.

■Company daycare facility

We will nurture employee's children and local children together at childcare facilities, etc. at the company. One place in the city.

■Small scale daycare facilities

We will provide precise childcare with the capacity of a small group (capacity of 6-19 people). Fourteen locations in the city.

Non-Ninka Certified Daycare Facilities

■Ninsho Certified Daycare Center

It is a daycare center that meets the criteria of Tokyo and is certified. We do childcare from 0 year old child and opened 13 hours a day or more. There is A type in the vicinity of the station and B type (only Sumire Daycare in the city) that carries out homely daycare. There is a childcare fee subsidy system (see P.23) according to certain requirements.

Kindergarten

In the city there are private kindergartens for 3-5 year olds. For further information such as recruitment, please contact each kindergarten. For details, please see P.36.

■Kindergarten Q & A

Q1 Can I visit the kindergarten before entering?

A. If you wish to visit, please contact in advance by phone, etc. before you go. Also, there are kindergartens conducting kindergarten recruitment briefings and kindergarten visits, so please contact each kindergarten.

Q2 How do I get an entry application form?

A. The entry application form for the following fiscal year will be distributed in each kindergarten from around 15th October. For details, please see the September 15 the issue Shiho-Musashino.

Q3 Tell me about the entrance procedure.

A. Please bring an application form for admission directly to each kindergarten. Regarding the interview at the time of admission and the decision on acceptance or rejection, there is a kindergarten to do on the designated day different from the kindergarten to be done on the submission date of the application form for admission. Regarding admission fee and facility maintenance fee, it seems that there are many cases where you pay mostly within one week after the admission decision.

Q4 Can I enter in the middle of the fiscal year?

A. Some kindergarten might be accepting entrance even during the year, please contact the kindergarten directly.

Q5 How much is the child care fee?

A. It depends on the kindergarten. It is roughly 25,000 yen to 35,000 yen per month. By making early childhood education free, you can receive free benefits up to the free upper limit. About kindergarten which shifted to new system, childcare charges become free in full.

Q6 What is the subsidy system for nursery fees, etc. ?

A. For children who attend private kindergartens, we will grant subsidies from Musashino City. (For kindergartens in and outside the city) Application will be distributed from each kindergarten after entering. Please submit the submission to the city office by mail or directly to the city hall (We do not handle at the municipal administration center). Please refer to P.24 for details of subsidy, amount of money, etc.

Q7 Are there events for pre-kindergarten children?

A. In kindergartens, we utilize the special characteristics of each kindergarten, and we are carrying out events that allow parents and pre-kindergarten children to participate. Please use as a place to make friends and group play experience. For details, please refer to the Shiho Musashino or Website.

Experiences of Senior Mom

As I was going back to work after childbirth and child rearing, I had to find a facility where I could leave my 2 years old child to be taken care of. Since I had no information on Japanese childcare facilities, I went directly to the city office and asked various questions. It was very helpful because they explained from the general thing of the application for admission to small details kindly. Since the application period for all entrance ceremonies from April in the following year was from November, I made preparations for preparing the documents and visiting daycares so as to make it in time. Many of my friends started 'Hokatsu' (the activity performed by parents to put their children in daycare) from September and October. Fortunately, the entrance from April was decided and I was able to go back to work at ease.

Japanese daycare (Ninka Certified Daycare Center) is a facility that keeps children and keeps them when parents are working or are in a state of sickness, when childcare at home is difficult. People who wish to enter daycare can only enter unless they meet the admission conditions. Since the acceptance period of the entrance application is different for April and the others, it is necessary to prepare for application in according to the desired time of entrance. The reception of the entrance in April of the following year will start around November. Gather information positively by going to the city office or ask directly to the daycare, to check such as early to meet the entrance criteria and which daycare meets our child.

As of April 2017, There are about 120 children on waiting list in Musashino City (children who are applying for admission and are in a state where they cannot enter the daycare despite of satisfying the entry standards). As the number of entrance applicants is increasing, entering the desired daycare is gradually becoming harder. If the applicant for admission exceeds the capacity, the numerical value used for screening is called "index". A person with a high index can preferentially enter the daycare. Although the method of calculating the index varies depending on the municipality, it seems that you can score high and take a high index, such as when working hour are long. It is quite difficult to enter the desired daycare if it is not possible to obtain a high index for reasons such as short working hours. If the child is over 3 years old, in such cases it is also a way to enter a kindergarten where has a substantial child care (it is also called 'extended childcare' which child care for hours after the regular hours). Basically, conditions for entering kindergarten are not except for age. However, if the number of entrants wishing to enroll exceeds the capacity, you may fall by interview, so let's prepare with multiple kindergartens as candidates.*Please ask Child raising Support Section(0422-60-1854)for the latest information of children on the waiting list.

Musashino City Hall has counselor Nursery Concierge. We receive consultation from each family and provide information on the childcare service that matches the circumstances and hope of the family. If you are having trouble finding children's childcare facilities, you may also consult an

expert to help them. Consultation will be in Japanese, so you can also use Interpreter Dispatch of MIA (chargeable/Free for twice during the fiscal year).

5. When you want to put the child in daycare.

Child care support service such as temporary childcare

"I need to go out, but I cannot go with my child", "I got sick."

Experiences of the Senior Mom

[We also used temporary childcare!](#)

●I used the child rearing support of an NPO Corporation

- At the age of 2, my son became atopic dermatitis. At night, he could not sleep because it was so itchy that I had to dandle him and I always didn't get enough sleep. My husband and I are both far away from home, so there is no help. I was always irritated because my daily sleep deprivation and my son's atopic dermatitis did not get better. When consulting at the [medical examination](#), I was introduced to NPO Corporations that are providing child rearing support. At first, I was very worried about having a stranger who I do not know taking care of my son.

However, the person who came was a very nice person and my intensely shy son was enough to make it familiar on the day. There were only people experiencing child rearing, I was able to leave it with peace of mind. They went out together and when he came back he seemed even cuter.

I was relieved from the first time childcare and I was able to relax and it helped me a lot. Even now, I remember nostalgically about those who took care of my son those days. For children, for Dad and Mom, I think I can spend my daily life more enjoyable by using [temporary childcare](#).

●I used Daycare for children with Sickness or Post-Sickness

I usually have my son kept at the daycare, but he sometimes gets sick (a fever, etc.), and be absent from the daycare. Although the fever fell, I am still worried to let him play in the daycare. In such cases, I was able to take my child at [a post-sickness childcare facility](#) with a nurse, and I was able to work with peace of mind. It is better to register before the child gets sick.

●I used Pre/Post Birth Helpers System

- During pregnancy, I was diagnosed as a pre-placenta and was told to rest quietly in bed from my doctor. However, because I had a 2 year old boy who still love to play outside, I could not sleep at home all day.

At that time, I learned about [Pre/Post Birth Helpers System](#), and the Helper took my son to play outside in the morning. Thanks to that, I got some time to lie down.

- It was when I gave birth to the third child. The second child was still a kindergarten child and needed to be picked up and dropped off every day. I could not bring out the newborn baby outside so I asked the helper to pick up and drop off to the kindergarten. It was particularly grateful, especially on rainy days.
